Research Title	: <u><i>Geometry of CR-Submanifolds of Some Almost Hermitian Manifolds</i></u> <u>هندسة عديدات الطيات الجزئية من نوع كوشي ريمان لبعض عديدات الطيات من النوع الهرميتي تقريبا</u>
Descriptipn	: The notion of Cauchy Riemann (CR) submanifold of a Kaehler manifold was introduced by A.Bejancu in 1978. Since then many papers appeared on this topic. In the present work, a comprehensive treatment of the results on CR-submanifold of a Kaehler manifold, Bochner Kaehler manifold and locally conformal Kaehler manifold discussing integrability conditions of distributions SD and $S\hat{D}$, sectional curvature, Ricci tensor and scalar curvature is presented. In addition, some results on CR-submanifold of locally conformal quaternion Kaehler manifold have been obtained
Research Type	: Master
Research Year	: 2005
Publisher	: KAAU
Supervisor	: د. محمد حسن شاهد
Added Date	: Wednesday, June 11, 2008
